

Letter of recommendation for Milosh Spasikj

To Whom It May Concern,

I am writing to recommend Milosh Spasikj. He worked with us at Transamerica as a contracted Sr. UX Designer across multiple high-profile Retirement initiatives.

As a member of our UX team, Milosh was always professional and focused on providing great solutions.

Milosh joined our team while projects were already in-flight and there wasn't much time for onboarding. He was eager to jump into a project and show us what he can do. He quickly aligned to other UX teammates and stakeholders and was able to deliver exactly what was needed. He was able to deliver a number of vital user flows, wireframes and hi-fidelity designs to improve multiple experiences across different user types and products.

I place a high value on personality and cultural fit when recruiting. Milosh is a great designer and an amazing person. He will be my first phone call when a new position opens on my team.

Should you have any further questions about him, feel free to contact me.

Thanks,

Dustin Payne
Sr. Director, Digital Experience
Transamerica
